## Chaplain's Log

May 2009

Greetings Club Members, Family & Friends

**Wisdom from the World's First Boater (or)  
All I Really Needed to Know I Learned from Noah's Ark**

1. Plan ahead – It wasn't raining when Noah built the Ark
2. Stay fit – When you're 600 years old, someone might ask you to do something REALLY big
3. Don't listen to critics – do what has to be done
4. Build on high ground
5. For safety's sake, travel in pairs
6. Two head's are better than one
7. Speed isn't always an advantage – The cheetahs were on board, but so were the snails
8. If you can't fight or flee – float!
9. Take care of your animals as if they were the last ones on earth
10. Don't forget that we're all in the same boat
11. When the doo-doo gets really deep, don't sit there and complain – shovel!
12. Stay below deck during the storm
13. Remember – the Ark was built by amateurs and the Titanic was built by professionals
14. If you have to start over, have a friend by your side
15. Remember that woodpeckers inside are often a bigger threat than the storm outside
16. Don't miss the boat
17. No matter how bleak it looks, there's always a rainbow on the other side
18. Stop what you're doing and do what God says
