## Chaplain's Log - April 2012

This year April brings us Easter. For Christians around the world Easter means one thing...Jesus rose from the dead. Why is this significant to us? Why would something that happened over 2000 years ago still be relevant to our lives? The answer is quite simple. Jesus died for our sins.

The fact that Jesus died is not that big of a deal in general terms...but the fact that He rose (after He said He would) is the difference between life and death for us. He conquered death. Death is inevitable for all of us. Everyone who lives eventually dies.

Jesus brings us the good news of the gospel telling us we can have eternal life with Him in heaven...and all we really need to know is this "***that if you confess with your mouth that Jesus is Lord and believe in your heart that God has raised Him from the dead, you will be saved***" *Romans 10:9*

I hope that everyone has a happy and safe Easter season.

Chaplain Dave
